SUMMARY

Senior Full Stack Developer with 7+ years of experience building scalable, cloud-native Java applications. Expertise in Java 17/21, Spring Boot, Angular 17, React 18, and RESTful APIs. Proven track record of driving engineering excellence with 85%+ test coverage, 99.9% uptime, and 95%+ sprint delivery in high-stakes financial environments. Strong at translating complex business requirements into efficient, maintainable solutions and leading teams through disciplined engineering practices.

TECHNICAL SKILLS

Backend: Java 17/21, Spring Boot 3, Spring Cloud, Python, Node.js, REST APIs, SOAP web services, GraphQL
Frontend: Angular 17, React 18, TypeScript, JavaScript (ES6+), HTML5, CSS3
Cloud & Infra: AWS (EKS, EC2, Lambda, S3, API Gateway, CloudWatch), Azure (App Services, Functions), GCP, Docker, Kubernetes
CI/CD & DevOps: GitHub, BitBucket, Jenkins, Maven, Gradle
Testing: JUnit 5, Mockito, Cypress, PyTest, Postman, Swagger
Databases: MySQL, Oracle, MongoDB, SQLServer, IBM DB2, PostgreSQL
Data, Messaging & Observability: Apache Kafka, RabbitMQ, Splunk, Grafana, JIRA, Confluence, Draw.IO

EXPERIENCE

Senior Software Engineer (Full Stack) **Nov 2022 – June 2025**

Daimler Truck Financial Services LLC (Contract) - Farmington Hills, MI

- Implemented **end-to-end full stack applications** using Java 21 (Virtual Threads), Spring Boot 3, and Angular 17 (standalone components, signals), achieving **3x backend concurrency gains** and **40% faster frontend load times** through optimized rendering and lazy loading
- Implemented non-blocking REST APIs using **Spring WebFlux** and **IBMDB2** for payment processing, handling **50K+ daily transactions** with **sub-50ms P98 latency**
- Deployed 12+ microservices on **AWS EKS** enabling zero-downtime deployments and mTLS communication
- Architected event sourcing using **Apache Kafka** with **Kafka Streams**, processing **100K+ messages/day** with exactly-once semantics
- Implemented **Jenkins-based CI/CD pipelines** delivering 12 production releases with zero rollbacks
- Resolved 25+ **P1/P2 production incidents** through root-cause analysis and log analysis, achieving **98% SLA compliance** and reducing mean-time-to-resolution by 40%
- Led team of **6 developers**, conducted architecture reviews, mentored 2 junior engineers on cloud-native practices

Full Stack Developer **Jun 2021 – Oct 2022**

SEI Investments (Contract) - Oaks, PA (Remote)

- Enhanced banking application serving **200+ institutional clients** using **Java 11** and **Spring Boot 2.7**
- Developed MT548 SWIFT feature processing **5K+ trade updates daily**, reducing manual reconciliation by **60%**
- Deployed on **AWS Lambda, EC2, RDS**; automated infrastructure with **Terraform**, reducing provisioning by **70%**
- Maintained **90% test coverage** with **JUnit** and **Cucumber**; reduced regression cycle from 3 days to **8 hours**
- Optimized **PostgreSQL** queries and implemented **Redis** caching, improving API response times by **35%**

Java Developer **Dec 2020 – Jun 2021**

Blue Yonder (Contract) - Waukesha, WI (Remote)

- Developed authorization service using **Java 11, Spring Boot** handling **10K+ daily API requests** with RBAC
- Implemented **Redis** caching reducing database calls by **80%**, improving response times from 800ms to **150ms**
- Applied Strategy design pattern in inventory service, reducing code complexity by **40%**
- Built responsive UIs using **React.js** and **Bootstrap 4** serving **500+ daily users**
- Designed **Terraform** configurations for **AWS/GCP** with auto-scaling, reducing compute costs by **30%**

Software Engineer **Jan 2019 – Oct 2020**

Miracle Software Systems (Full-time) - Novi, MI

- Developed RPA monitoring dashboard using **Angular 8** and **Node.js** tracking **50+ bots** with real-time updates
- Built internal apps using **Python, Django, Flask** adopted by **100+ employees**
- Deployed **15+ REST APIs** using **Node.js/Express** on Digital Ocean with **99% uptime**
- Implemented **Kong API Gateway** with **Docker**, reducing unauthorized access by **95%**

EDUCATION

Master of Science in Information Technology — Minnesota State University, Mankato — 2018
Bachelor of Technology in Computer Science — Jawaharlal Nehru Technological University — 2015
